WORK EXPERIENCE

Full-Stack Developer Consultant

Extia consulting - Sept. 2024 - today, Lisbon, Portugal

Extia consulting - Sept. 2023 (1 year), Bucharest, Romania

REACT.JS REDUX NEXT.JS TYPESCRIPT NEST.JS GIT SOCKET.IO MONGODB

Extia is a European consulting agency. I contributed to several international projects by performing the following tasks:

- Analyzing client requirements & writing specifications
- Designing web interfaces (React, Next.js, PWA) and dynamic email templates
- Developing & securing APIs
- Managing VPS servers, CI/CD with GitHub Actions, PM2 & Nginx
- Writing tests and developing in TDD (Test-Driven Development)

Full-Stack Developer

ITAF.TECH - Jun. 2022 (1,5 years), Bordeaux, France

VUE.JS JAVASCRIPT EXPRESS.JS NODE.JS GIT MONGODB

ITAF develops a healthcare ERP used by over 70,000 patients, where I contributed as a full-stack developer:

- Developing & integrating new features, internationalization (i18n), and architectural refactoring
- Providing customer support & technical assistance to users
- Estimating tasks, conducting code reviews & mentoring junior developers
- Deploying & maintaining the application in production
- Automating unit and functional tests

Full-Stack Developer

Centre Harmonia - Janv. 2021 (6 months), Pau, France

VUE.JS JAVASCRIPT LARAVEL PHP GIT MYSQL

Centre Harmonia is an environmental protection organization. I developed a website and digital tools to enhance management and internal organization:

- Designing and developing a website & internal tools
- Developing features for event planning
- Deployment, performance monitoring & maintenance

Full-Stack Developer

Addeo - Apr. 2019 (2,5 years), Bordeaux, France

VUE.JS JAVASCRIPT CAKEPHP PHP GIT MYSQL

Addeo is a web agency specializing in e-learning, where I contributed to the development of a SaaS application for career development:

- Collaborating with the design team to assess feature feasibility
- Rewriting the codebase following clean architecture principles
- Optimizing performance and ensuring maintenance
- Writing unit tests to maintain product quality
